Subject: Response to Request for Comments on Draft Regulatory Guide, "Design, Inspection, and Testing Criteria for Air Filtration and Adsorption Units of Post Accident Engineered Safety Feature Atmosphere Cleanup Systems in Light Water Cooled Nuclear Power Plants (DG-1102)" and "Design, Inspection, and Testing Criteria for Air Filtration and Adsorption Units of Normal Ventilation Exhaust Systems in Light Water Cooled Nuclear Power Plants (DG-1103)"

This letter is being submitted in response to the NRC's request for comments concerning the NRC's proposed guidelines for complying with regulations on the design, inspection and testing criteria of air filtration and adsorption units of Post Accident Engineered Safety Feature Atmosphere Cleanup Systems, and Normal Ventilation Exhaust Systems, in light-water-reactor nuclear power plants.

PECO Energy Company appreciates the opportunity to comment on DG-1100 and supports the comments submitted on behalf of the nuclear energy industry, by the Nuclear Energy Institute.

If you have any questions, please do not hesitate to contact us.

Very truly yours,

James A. Hutton, Jr.
