

February 21, 1

Mr. Robert G. Byram
Senior Vice President-Nuclear
Pennsylvania Power and Light
Company
2 North Ninth Street
Allentown, PA 18101

SUBJECT: SUSQUEHANNA STEAM ELECTRIC STATION, UNITS 1 & 2 (TAC NOS. M90733 & M90734)

Dear Mr. Byram:

On January 31, 1995, the Commission issued Amendment No. 141 to Facility Operating License No. NPF-14 and Amendment No. 111 to Facility Operating License No. NPF-22 for the Susquehanna Steam Electric Station, Units 1 and 2. Due to an administrative oversight, the amendment incorrectly indicated that the implementation would be 30 days after the date of amendment issuance.

In discussions with your staff the implementation will be as follows:

1. For SSES Unit 1, Amendment 141 will be implemented during startup from the 8th refueling outage scheduled for the spring of 1995,
2. For SSES Unit 2, Amendment 111 will be implemented during startup from the 7th refueling outage scheduled for the fall of 1995.

This letter hereby corrects the implementation dates for the above referenced amendments. If you have any questions concerning this change, please contact me on 301-415-1402.

Sincerely,
/s/

Chester Poslusny, Project Manager
Project Directorate I-2
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
