Denver, CO 80202

SUBJECT: CROW BUTTE RESOURCES, INC., LICENSE NO. SUA-1534 - RESPONSE
TO AUGUST 28, 2000 LETTER ON GROUND-WATER RESTORATION GOAL
AMENDMENT REQUEST

Dear Mr. Collings:

Thank you for your letter of August 28, 2000, in which you presented information pertinent to your request for a license amendment on ground-water restoration. You conclude that previous NRC staff decisions had considered the ground-water restoration goal for the Crow Butte *in situ* leach facility establish by the Nebraska Department of Environmental Quality Underground Injection Control Permit to be an appropriate secondary ground-water restoration goal for the Crow Butte facility. In support of this contention your letter contained copies of selected pages from the Crow Butte Application dated December 1995 and the Crow Butte Environmental Assessment dated February, 1998. The staff is considering this additional information in it's ongoing review of the amendment request.

Mr. Ford has been reassigned to the NRC High Level Waste program. Michael Layton will be the project manager for the Crow Butte facility. He can be reached at (301) 415-6676.

Sincerely,

/RA/

Philip Ting, Chief
Fuel Cycle Licensing Branch
Division of Fuel Cycle Safety
and Safeguards, NMSS

Docket No. 40-8943
License No. SUA-1534

cc: Mr. Michael L. Griffin, CBR, Nebraska
Dave Miesbach, Nebraska, UIC, DEQ
Dave Carlson, Nebraska, UIC, DEQ
Cheryl K. Rogers, Nebraska, RMP, PHA
