ADJUDICATIONS STAFF

VIGIL REMINDER AND CALL TO ACTION -

KEEP THE PRESSURE ON SEN. EDWARDS AND REP. PRICE

**SERVED** JAN 16 2001

Last week we stole much of the momentum back from CP&L and its favorite federal agency, the NRC.

Now we take it all back. Do not miss this historic evening in Pittsboro.

## CANDLELIGHT VIGIL ON NUCLEAR WASTE

Chatham Commissioners to Take a Stand on CP&amp;L Project

Citizens from Chatham County and across the region will converge at the court square in Pittsboro Tuesday to call for the Chatham County commissioners to take a stand on CP&L's proposed high-level waste expansion at the Shearon Harris Nuclear Plant.

Tuesday, January 16th 6pm Old Courthouse, Center of Pittsboro

In addition to people from all over the Triangle, many Moncure residents will join the vigil as a prelude to the commissioners' meeting, where a highly controversial landfill project proposed for the Moncure area will also be considered.

The candlelight vigil will feature the Rev. Carrie Bolton as key speaker, as well as music from the Alston Angels, a children's choir.

While having no legal jurisdiction on the nuclear waste expansion, the Chatham government's voice would carry much weight since Shearon Harris is just across its border with Wake County. Since the public learned of CP&L's plan in late 1998, the company has claimed that Orange County, which has an ongoing legal challenge, is the only area government that cares about the plan.

If you don't like crowds, just remember - it's better than a mall !

\*\*\*\*\* ACTION ALERT \*\*\*\*\*

Whether or not you make the vigil ... we need EVERYONE to make 2 VERY SHORT phone calls:

An NRC decision on Orange County's appeal is expected any day. The NRC's licensing board will rule

Template = SECY-038

SECY-02

later on whether to conduct safety hearings.

Thank Sen. John Edwards and Rep. David Price for their Jan. 5th letter questioning the NRC's actions.

But we must urge them to do more! Call on them to do all possible to prevent central North Carolina from living under a cloud of scientific uncertainty – with the nation's largest high-level waste site in our midst.

Nevada's congressional delegation has protected their state for years against the Yucca Mountain high-level nuclear dump – by raising their voices in Congress and with the NRC and the Dept. of Energy.

Surely Price and Edwards can match that clout – especially with Edwards seen as a rising power and future potential presidential candidate.

These two men have the power to prevent CP&L and NRC from cheating the public out of an open scientific debate. Keep your call very short – but please call!

Pass this message along; get your friends and family to make the 2 very short calls.

It's easy, fun and it makes a big difference.

Sen. John Edwards: 919-856-4245 Rep. David Price: 919-789-8771 or 967-7924

(If you've called them before – PLEASE call them again. Keep letting them know we need them now. We'd ask for emails, but they are not as effective)

"Now is the time to make real the promise of democracy." Dr. Martin Luther King

THANKS!
