**CORRECTION TO DECLARATION OF  
GEORGE WAGNER AND DAVID GIRMAN**

Applicant Private Fuel Storage, L.L.C. ("Applicant") hereby files a correction to the Declaration of George Wagner and David Girman (Dec. 30, 2000), which was filed in support of Applicant's Motion for Summary Disposition of Utah Contention K and Confederated Tribes Contention B (Dec. 30, 2000). Paragraph 25 of the declaration should be corrected as follows, with new text underlined and old text struck through:

25. The locations of the cruise missile crash sites on the UTTR over the last 10 years are listed on Table 1 in the Cruise Missile Report. None of the missiles crashed within 10 nautical miles of the PFSF site. The closest crash location is ~~18~~3 miles to the southwest. Another crashed 18 miles from the site and ~~the remainder~~ impacted over 30 miles from the PFSF, with the most distant 115 miles to the southwest. Assuming a nominal missile ground speed of 420 knots, the nearest cruise missile impact location was almost ~~at least~~ 2 1/2 minutes flying time from the PFSF site. This is a long time considering that an FTS can be activated nearly instantaneously. As discussed above, according to Col. Lightfoot at the UTTR and the 49<sup>th</sup> Test Squadron at Barksdale AFB, the cruise missile crashes on the UTTR impacted the ground within at most half a mile of the planned missile flight path.

Respectfully submitted,
