United States Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, D.C. 20555-0001Quad Cities Nuclear Power Station, Units 1 and 2
Facility Operating License Nos. DPR-29 and DPR-30
NRC Docket Nos. 50-254 and 50-265

Subject: Quad Cities Nuclear Power Station Security Plan, Revision 51.

In accordance with 10 CFR 50.54(p)(2), "Conditions of licenses," we are submitting changes to the Commonwealth Edison (ComEd) Company Quad Cities Nuclear Power Station Security Plan. In accordance with 10 CFR 50.4(b)(4), "Security plan and related submittals," attached are the original and three (3) copies of Revision 51.

Revision 51 includes the following changes.

The Security Plan has been revised to replace/modify the description of the security organization with a new organizational structure. New descriptions have been added for Corporate Nuclear Security, the Regional Operating Group (ROG), and Site Nuclear Security. Other changes, including position and title name changes, were also required. All changes are considered editorial and were made due to the company's reorganization resulting from the merger between Chicago-based Unicom Corporation and Philadelphia-based PECO Energy Company.

As required by 10 CFR 50.54(p)(2), we have concluded that these changes do not decrease the safeguards effectiveness of the Quad Cities Nuclear Power Station Security Plan.

The changes to the Quad Cities Nuclear Power Station Security Plan were implemented on November 7, 2000. In accordance with 10 CFR 50.54(p)(2), this change shall be reported within 60 days of implementation, i.e., January 6, 2001.
