Dear Mr. Keiser:

Subject: Corrected Technical Specification Page in Amendment 31  
for Susquehanna Steam Electric Station - Unit 2

Amendment No. 31 of the Susquehanna Steam Electric Station included a change on page 1-1 of the Unit 2 Technical Specification definition for average bundle exposure. A wording error was inadvertently caused during typing of the average bundle exposure definition. The attached page corrects the error by deleting the phrase "at the specified height". Please replace the Unit 2 Technical Specification page 1-1 with the attached page.

We regret any inconvenience caused by the error.

Sincerely,

/S/

Mohan C. Thadani, Project Manager  
BWR Project Directorate No. 3  
Division of BWR Licensing
