Vice President  
Nuclear Generation

SUBJECT: INSPECTION PLAN - FERMI

Dear Mr. O'Connor:

The purpose of this letter is to inform you of an update to our plans for future inspections at your facility, as described in our letter to you dated November 29, 2000. In that letter we stated that if circumstances arise which cause us to change the inspection plan, we would contact you to discuss the change as soon as possible.

It has come to our attention that a Plant Support Inspection scheduled for March 19 through 23, 2001, will conflict with a scheduled WANO/INPO Plant Evaluation planned for March 12 through 24, 2001 at your site. Therefore, we will postpone the Plant Support Inspection until a date after October 1, 2001. The exact date of the inspection is yet to be determined and will be included in future correspondence following the end-of-cycle review meeting in April 2001.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Please contact me at (630) 829-9876 with any questions you may have regarding this letter or the inspection plan.

Sincerely,
