Harry Doane, Reactor Supervisor  
Marvin Mendonca, Nuclear Regulatory Commission, Washington, D.C.

Re: Sabbatical Leave

Concerning my revised plans for Sabbatical, I shall be on Sabbatical Leave during the calendar year, 2001. Effective 2 January, 2001, until further notice, Harry Doane will be Acting Director of the Nuclear Reactor Laboratory. Harry is planning to retire on 31 March, 2001. Dr. Morton Wacks has indicated his willingness to cover my position from then until the end of June, and subsequently as needed when I am away.

During the year, I shall be available on campus from time to time, and I plan to keep current my licensed position as Senior Reactor Operator. Also, I should like to be kept informed of any unusual circumstance that may affect the lab, and will be available for consultation. I shall be reading my e-mail and will keep the acting Laboratory Director informed of my whereabouts.

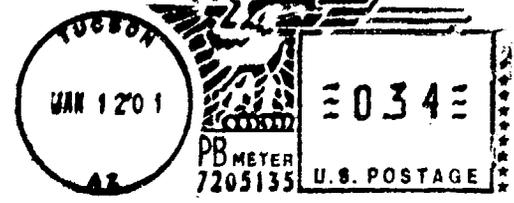

I hope that you all will give Harry and Mort your full support and assistance during my absence.
