MEMORANDUM TO: Stuart A. Richards, Director
Project Directorate IV & Decommissioning
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

FROM: Girija S. Shukla, Project Manager, Section 2
Project Directorate IV & Decommissioning */RA/*
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF MEETING HELD ON JANUARY 10, 2001, WITH
NUCLEAR UTILITIES SOFTWARE MANAGEMENT GROUP (NUSMG)
TO DISCUSS PROPOSED NUSMG QUALITY CONTROLS
STANDARDS APPLICABLE TO DIGITAL TECHNOLOGY SYSTEMS
AND DIGITAL DATA MANAGEMENT

On January 10, 2001, representatives of Nuclear Utilities Software Management Group (NUSMG) met with the NRC staff to discuss proposed NUSMG quality control standards applicable to digital technology systems and digital data management for activities affecting quality at NRC licensed nuclear generating facilities. Attachment 1 contains the list of meeting attendees. The handout, including copies of the slides used during the meeting, is available under ADAMS accession number ML010160308.

In the meeting, NUSMG provided a description of their "Guidance Document for Digital Technology Systems Quality Assurance Programs for Nuclear Generation Facilities," (NEI/NUSMG 00-03, Revision 0). This guidance document was developed by NEI and NUSMG to ensure that digital technology systems activities are consistent with Federal regulations, good industry practices, and the mission of the generation facilities. A copy of the guidance document was provided to the staff as an attachment to the handout for information only.

During the discussion, the staff pointed out to NUSMG that other industry groups such as Electric Power Research Institute and Nuclear Information and Records Management Association are already working on similar guidance documents and suggested NUSMG to coordinate with these groups. There was some discussion about the timing of when the document would be submitted to the staff for its review and how the requested NRC review will be paid for by either NEI or NUSMG.
