SUBJECT: INITIAL EXAMINATION - NRC INSPECTION REPORT 50-416/00-302

Dear Mr. Eaton

In a telephone conversation on October 24, 2000, between Mr. Jay Miller, Supervisor, Licensed Operator Training, and Mr. Michael Murphy, Chief Examiner, arrangements were made for the administration of a written licensing examination at Grand Gulf Nuclear Station, on December 18, 2000.

As agreed during the telephone conversation, your staff will prepare the examination based on the guidelines in Revision 8, of NUREG-1021, "Operator Licensing Examination Standards for Power Reactors." The NRC regional office will discuss with your staff any changes that might be necessary before the examination is administered.

To meet the above schedule, it will be necessary for your staff to furnish the examination outlines by November 1, 2000. The draft written examination with supporting reference materials, as discussed, will be due by December 4, 2000. Pursuant to 10 CFR 55.40(b)(3), an authorized representative of the facility licensee shall approve the outlines, and examinations before they are submitted to the NRC for review and approval. All materials shall be complete and ready-to-use. Any delay in receiving the required examination and reference materials, or the submittal of inadequate or incomplete materials, may cause the examinations to be rescheduled. In order to conduct the requested written examinations, it will be necessary for your staff to provide adequate space and accommodations in accordance with ES-402.

Appendix E of NUREG-1021 contains a number of NRC policies and guidelines that will be in effect while the written examination is being administered.

To permit timely NRC review and evaluation, your staff should submit preliminary reactor operator and senior reactor operator license applications (Office of Management and Budget (OMB) approval number 3150-0090), medical certifications (OMB approval number 3150-0024), and waiver requests (OMB approval number 3150-0090) at least 17 days before the first examination date. If the applications are not received at least 17 days before the examination date, a postponement may be necessary. Signed applications certifying that all training has been completed should be submitted at least 7 days before the first examination date.

This letter contains information collections that are subject to the *Paperwork Reduction Act of*

1995 (44 U.S.C. 3501 et seq.). These information collections were approved by the Office of Management and Budget, approval number 3150-0018, which expires on April 30, 2003.

The public reporting burden for this collection of information is estimated to average 500 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, writing the examinations, and completing and reviewing the collection of information. Send comments on any aspect of this collection of information, including suggestions for reducing the burden, to the Information and Records Management Branch (T-6 F33), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, or by Internet electronic mail at BJS1@NRC.GOV; and to the Desk Officer, Office of Information and Regulatory Affairs, NEOB-10202, (3150-0101), Office of Management and Budget, Washington, DC 20503.

The NRC may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Thank you for your cooperation in this matter. Mr. Miller has been advised of the policies and guidelines referenced in this letter. If you have any questions regarding the NRC's examination procedures and guidelines, please contact Mr. Michael Murphy at 817-860-8152 , or Mr. John Pellet at 817-860-8159.

Sincerely,

John L. Pellet, Chief
Operations Branch
Division of Reactor Safety
