Denver, Co. 80202

Dear Mr. Collings:

On October 4, 2000, the Nebraska Department of Environmental Quality received a copy of the Surety Cost Estimate document submitted by Crow Butte Resources, Inc. to estimate costs associated with mining, restoration, decommission, and reclamation at the Uranium Facility through Fiscal Year (FY) 2001.

The Department has reviewed the document for sufficiency and compliance with Chapter 37, Title 122 - Rules and Regulations for Underground Injection and Mineral Production Wells. As a result of this review, the Department has determined that it is adequate under existing site conditions.

If you have any questions or comments concerning this letter or the review of the Surety Cost Estimate document, please contact David Miesbach of my staff at (402) 471-4982. Thank-you for your cooperation.

Sincerely,

Michael J. Linder
