SUBJECT: INFORMATION REQUESTED TO ENSURE APPROPRIATE SCHEDULING AND  
PRIORITIZATION OF THE PRIVATE FUEL STORAGE, L.L.C. APPLICATION  
REVIEW (TAC NO. L22462)

Dear Mr. Parkyn:

At your meeting with the Nuclear Regulatory Commission staff on March 2, 1998, the staff requested that you provide certain information necessary to appropriately schedule and prioritize the staff's review of the Private Fuel Storage, L.L.C. (PFS) application to construct and operate an away-from-reactor independent spent fuel storage installation (ISFSI) on the reservation of the Skull Valley Band of Goshute Indians. As stated in the meeting, we request that PFS provide a list of the operational requirements of its member utilities for dry cask storage and their projected dates of loss of full core reserve off-load capabilities. In addition, we request that you provide a description of contingency plans for storage by member utilities (e.g., transshipment of spent fuel) which would allow for continued operations in the event that the PFS ISFSI licensing process has not been completed in time to meet the projected dates. In order to assure that the staff's review of this and other applications is appropriately prioritized, it is extremely important that this information be submitted in a timely manner.

Please have your staff provide this information directly to Mr. Mark Delligatti, the Senior Project Manager assigned to the review of the PFS application. If you have any questions regarding this request, please address them to Mr. Delligatti at (301) 415-8518.

Sincerely,
