Dear Mr. Beckett:

We appreciate your January 2, 2001, letter providing the Office of Nuclear Material Safety and Safeguards (NMSS), U.S. Nuclear Regulatory Commission (NRC) with your anticipated schedule for the Naval Reactors Safety Analysis Reports for Packaging (SARP) and SARP revisions for our review. If you have any questions or concerns on NMSS' role in the Naval Reactors SARP reviews, please contact E. William Brach, Director of the Spent Fuel Project Office. He may be reached at (301) 415-8500.
