Notice is hereby by given that the Nuclear Regulatory Commission (NRC) will be establishing a local public document room (LPDR) for records pertaining to the proposed independent spent fuel storage installation (ISFSI) to be built on the Skull Valley Goshute Indian Reservation in Utah once the application from Private Fuel Storage, Limited Liability Corporation (PFS) has been docketed. This notice invites public comment on possible LPDR locations that will be convenient to residents of the Skull Valley Goshute Reservation and surrounding Tooele County, as well as interested parties in Salt Lake City.

Among the factors the NRC will consider in selecting a new location for the LPDR are the following:

- (1) Whether the institution is an established document repository located near the nuclear facility with a history of impartially serving the public;
- (2) The physical facilities available, including shelf space, storage space, patron workspace, copying equipment and computer access;
- (3) The willingness and ability of the library staff to maintain the LPDR collection and assist the public in locating records;
- (4) The nature and extent of related research resources, such as government documents;
- (5) The public accessibility of the library, including handicap
