 Washington, D. C. 20555
 Re Docket # 72-22

Dear Sir:

Undergarden called me last night
 to clean up their own mess, not
 to dump them in their neighbors
 laps. This lesson, sadly, is
 forgotten by the time they become
 adults.

Storage of nuclear waste
 should be the responsibility of the
 entity that produced it, not the
 planned for, not just conveniently
 passed on to their neighbors.
 California should leave that
 waste where it is, or use its
 own deserts, not ours.

A sitting, NFEW/
