Mr. A. Alan Blind  
Vice President, Nuclear Power  
Consolidated Edison Company  
of New York, Inc.  
Broadway and Bleakley Avenue  
Buchanan, NY 10511

SUBJECT: INDIAN POINT NUCLEAR GENERATING UNIT NO. 2 - CORRECTIONS TO  
AMENDMENT NO. 214 (TAC NO. MA6236)

Dear Mr. Blind:

In a letter dated December 28, 2000, the Commission issued Amendment No. 214 to Facility Operating License No. DPR-26 for the Indian Point Nuclear Generating Unit No. 2 (IP2). Amendment No. 214 consisted of changes to the Technical Specifications (TSs) in response to an application from Consolidated Edison Company of New York, Inc. (Con Edison), dated July 26, 1999, to amend the degraded voltage trip and under-frequency trip requirements in TS Tables 3.5-3 and 4.1-1.

On November 30, 2000, the Commission issued Amendment No. 212 for IP2 that revised, in part, TS Table 3.5-3. On October 29, 1999, the Commission issued Amendment No. 205 for IP2 that revised TS Table 4.1-1. However, when the Commission issued Amendment No. 214, the previous revisions under Amendment Nos. 205 and 212 were inadvertently removed from the affected portions of the TS Tables. In addition, because of this error, TS Table 3.5-3, pages 1 of 4 and 3 of 4, were issued in Amendment No. 214 although no revisions were made to these pages. These two pages should not have been included with Amendment No. 214 and should remain annotated as revised by Amendment No. 212. Further, the pagination of TS Table 4.1-1 was incorrect in Amendment No. 214.

Therefore, corrected TS Table 3.5-3 (Pages 1 of 4 through 4 of 4) and TS Table 4.1-1 (Pages 1,2,4, and 5 of 8) are provided as replacements for those issued in Amendment No. 214.

A. Blind
