Dear Mr. Dohmann:

This refers to Fansteel, Inc.'s letter dated May 9, 2000, requesting to discontinue review of the decommissioning plan for the containment cell for on-site waste disposal at the Muskogee, Oklahoma site. This request was further confirmed by you in our site meeting on November 14, 2000. Based on this information, the U.S. Nuclear Regulatory Commission (NRC) staff has terminated its review of Fansteel's August 1999 Decommissioning Plan. We, therefore, are closing the casework previously opened by TAC L31225 for that review. If you have any questions regarding this action, please contact me at (301) 415-6640.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).
