

January 29, 2001

MEMORANDUM TO: Susan F. Shankman, Deputy Director  
Licensing and Inspection Directorate  
Spent Fuel Project Office, NMSS

FROM: Robert Temps, Safety Inspector */RA/*  
Spent Fuel Project Office, NMSS

SUBJECT: SUMMARY OF PUBLIC MEETING INVOLVING A PRESENTATION BY  
THE NUPIC DSQG TO NRC

On January 25, 2001, a public meeting was held involving a presentation to representatives of the U.S. Nuclear Regulatory Commission (NRC) by the Nuclear Procurement Issues Committee (NUPIC) Dry Storage Quality Group (DSQG). The meeting was noticed on January 2, 2001.

Following introductory remarks, members of the DSQG provided an overview of the NUPIC organization and of the DSQG working group. The DSQG presentation provided information on the working group's membership, its purpose, and the three phase process developed for audits of dry cask storage system designers and fabricators, and for site implementation by licensees (see Attachment 1). In the general discussion that followed, NRC was invited to attend future DSQG work group meetings (currently held twice a year) and to observe performances of DSQG audits. NRC management acknowledged the efforts by NUPIC and the DSQG in helping improve performance in the dry cask storage cask arena and also expressed an interest in attending future DSQG meetings and in observing future audits.

No proprietary information was disseminated or presented at this meeting. No regulatory decisions were requested or made.

Please contact me if you wish to further discuss these issues.
