

State of Louisiana

Department of Environmental Quality

M.J. "MIKE" FOSTER, JR.
GOVERNOR

J. DALE GIVENS
SECRETARY

Paul Lohaus
Deputy Director, Office of State and Tribal Programs
O3H2O
US Nuclear Regulatory Commission
Washington, DC 20555-0001

Dear Mr. Lohaus;

In accordance with the Guidance for Use by Agreement States for Submitting Regulations for NRC Staff Review, I have enclosed a disk containing the latest proposed regulation amendments, log #RP027, to the Louisiana Administrative Code, Title 33, Part XV, Radiation Protection (In Word 6.0/95 version).

This rule package consists almost entirely of amendments that are required for purposes of compatibility (category A, B, or C). All of the amendments in this package should meet NRC compatibility criteria. Wherever possible, the editor inserted the exact wording of the 10 CFR rules into the amendment, and followed Federal Register guidelines regarding Agreement State compatibility.

Regulations requiring amendments were identified from SA-200, Compatibility Categories and Health and Safety Identification for NRC Regulations and Other Program Elements, and SA-201, Review of State Regulations.

- Licenses for Industrial Radiography and Radiation Safety Requirements for Industrial Radiography Operations – Parts 30, 34, 71, and 150 (62 FR 28948)
- Licenses for Industrial Radiography and Radiation Safety Requirements for Industrial Radiographic Operations – Part 34 (63 FR 37059)

Please submit your comments on these regulations no later than April 1, 2001. If you have any questions regarding these regulation amendments, please contact me at (225) 765-0232 or Kimberly Detillier of my staff at (225) 765-0399, or email kimberly_d@deq.state.la.us.

Sincerely,

Robert P. Hannah
Administrator
