Dear Mr. Creel:

SUBJECT: CORRECTION TO AMENDMENTS NO. 141 (CALVERT CLIFFS UNIT 1)
AND 124 (CALVERT CLIFFS UNIT 2) (TAC NOS. 71225 AND 71226)

By letter dated April 16, 1990, the Commission issued Amendment No. 141 to Facility Operating License No. DPR-53 and Amendment No. 124 to Facility Operating License No. DPR-69 for the Calvert Cliffs Power Plant, Unit Nos. 1 and 2, respectively.

It has subsequently been discovered that the list of affected pages which was included with the amendments did not indicate that Page Number 3/4 0-3 was included, even though the revised page was issued with the amendments. The only change to the technical specification page was to relocate some requirements from the preceding page to Page 3/4 0-3. In addition, the list indicated that Page Number B3/4 0-5 should be removed. Since this page is not in the present technical specifications, the amendments should have indicated that the new page should be inserted only. A revision to the index page is attached which correctly lists the affected pages. Please replace the original page list with the attached.

We regret any inconvenience this may have caused.

Sincerely,

Original signed by
