

April 3, 1957

Mr. W. M. Flowers, President
Sinclair Research Laboratories, Inc.
600 Fifth Avenue
New York 20, New York

S.M. Sinclair Research

Dear Mr. Flowers:

A letter of April 1, 1957, from Mr. H. L. Price, Director of The Division of Civilian Application, notified you that I would be able to attend and to represent this Division at the ceremonies dedicating your high-level radiation facility at the Harvey, Illinois Research Center. Your letter of March 15 indicated that guests would be driven to the laboratories at Harvey on the morning of Tuesday, April 9. I will be staying at the Hotel East Windermere in Chicago, arriving approximately 5 PM on Monday, April 8. Would you kindly leave word at the Hotel East Windermere at what time I should meet the group which will be departing from the Shoreland Hotel for the dedication ceremonies.

I look forward to this occasion marking a very important and pioneering step in the field of applied radiation and to becoming more closely acquainted with your staff, facilities and plans.

Very truly yours,

Paul C. Aebersold
Assistant Director
Isotopes and Radiations
Division of Civilian Application
