RENTAL OF SPENT FUEL ELEMENTS

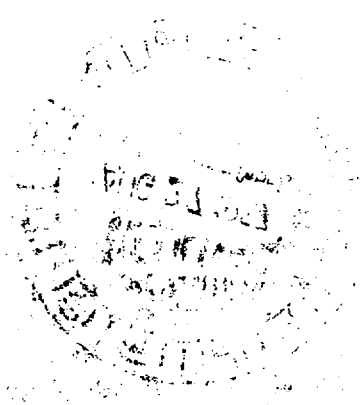

SYMBOL: OR:KND

Four spent fuel elements, on rental to Sinclair Research Laboratories in Harvey, Illinois, were shipped from the MTR on August 16, 1957, with Tri-State Warehousing and Distributing Company of Joplin, Missouri, furnishing the transportation service and the cask. The Reller Company of Boise, Idaho, constructed the cask for Tri-State.

The shipment was unloaded at the Sinclair facility on August 19, 1957. At the time of shipment two of the elements were 83 days cooled and two were 93 days cooled.
