Gentlemen:

Amendment No. 10 to Provisional Operating License No. DPR-18 for the R. E. Ginna Nuclear Power Plant issued March 30, 1976 contained an incorrect page 2.1-3 of Appendix A. The definitions of hot channel factors had been moved to Section 1.0 and the values of the hot channel factors to Section 3.10 by Change No. 9 to the Technical Specifications issued June 29, 1973. These items were inadvertently not deleted from page 2.1-3 at that time. Therefore this is to inform you that the material in the bases on page 2.1-3 of Amendment No. 10 should be deleted. Page 2.1-3 is now a blank page.

Sincerely,

Original signed by:
