Gentlemen:

On March 11, 1981, the USNRC's Division of Licensing issued Amendment No. 37 to License No. DPR-18 for your Ginna Facility. The amendment approved your Safeguards Contingency Plan (SCP) of April 3, 1980 and July 24, 1980, and a September 10, 1980 revision to the Ginna Physical Security Plan. Fees pursuant to 10 CFR 170.22 were paid on July 25, 1979, for a SCP dated March 23, 1979. No fees were remitted with your September 10 Physical Security Plan revision.

The review staff has informed us that your April and July submittals supersede your March 23, 1979 SCP; therefore, the Class III fee paid on July 25, 1979, covers the review of your 1980 SCP submittals. Concurrently, the review staff has determined that your September 10 Physical Security Plan revision was a separate issue from the SCP and that the review involved an issue that was administrative in nature and requires a Class II fee of \$1,200.

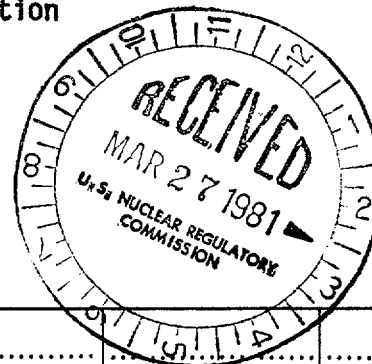

On the basis of the above, it is requested that your office promptly remit a sum of \$1,200 to this office for your September 10 revision.

Sincerely,

Original Signed by:

Reba M. Diggs
