Docket No. 50-244  
LS05-81-11-085

Mr. John E. Maier, Vice President  
Electric and Steam Production  
Rochester Gas and Electric Corporation  
89 East Avenue  
Rochester, New York 14649

Dear Mr. Maier:

SUBJECT: GUARD TRAINING AND QUALIFICATION PLAN - R. E. GINNA

The Commission has issued the enclosed Amendment No. 46 to Provisional Operating License No. DPR-18 for the Robert E. Ginna Nuclear Power Plant, in response to your initial submittal dated August 19, 1979, and the revised plan dated April 23, 1981 (as submitted by letter dated May 4, 1981). The latest plan now includes revised pages dated July 29, 1981, as submitted by your letter dated July 30, 1981.

The amendment modifies License No. DPR-18 to include a requirement to maintain a Guard Training and Qualification Plan to be fully implemented in accordance with 10 CFR 73.55 (b)(4) within 60 days of this approval by the Commission.

We have completed our review and evaluation of the Ginna Plant Guard Training and Qualification Plan and have concluded that the plan, when fully implemented, will meet the requirements of 10 CFR 73.55(b)(4) and Appendix B to 10 CFR 73. We, therefore, further conclude that this Plan is acceptable.

Changes which would not decrease the effectiveness of the approved Guard Training and Qualification Plan may be made without approval by the Commission pursuant to the authority of 10 CFR 50.54(p). A report containing a description of each change shall be furnished to the Director, Office of Nuclear Reactor Regulation, U. S. Nuclear Regulatory Commission, Washington, D. C. 20555, with a copy to the appropriate NRC Regional Office within two months after the change is made. Records of changes made without Commission approval shall be maintained for a period of two years from the date of the change.

This amendment applies to the Guard Training and Qualification Plan and, therefore, does not authorize a change in effluent types or total amounts or an increase in power level, and will not result in any significant environmental impact. Having made this determination, we have further concluded that this amendment involves an action which is insignificant from the standpoint of environmental impact and pursuant to 10 CFR 51.5(d)(4) that an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

Since the amendment adds a license condition to include the Commission approved Guard Training and Qualification Plan to the license, it does not involve a significant increase in the probability or consequences of an accident, does not involve a significant decrease in a safety margin and, therefore, does not involve a significant hazards consideration. We have also concluded that there is reasonable assurance that the health and safety of the public will not be endangered by this action and that the issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public.

We will withhold your Guard Training and Qualification Plan and related materials from public disclosure in accordance with the provisions of 10 CFR 2.790(d).

A copy of the Notice of Issuance is also enclosed.

Sincerely,

DOCKET NO. 50-244

R. E. GINNA NUCLEAR POWER PLANT

AMENDMENT TO PROVISIONAL OPERATING LICENSE

Amendment No. 46  
License No. DPR-18

1. The Nuclear Regulatory Commission (the Commission) has found that:
  - A. The filing\* by Rochester Gas and Electric Corporation (the licensee) dated May 4, 1981, as supplemented by information dated July 30, 1981, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations set forth in 10 CFR Chapter I;
  - B. The facility will operate in conformity with the filing, the provisions of the Act, and the rules and regulations of the Commission;
  - C. There is reasonable assurance (i) that the activities authorized by this amendment can be conducted without endangering the health and safety of the public; and (ii) that such activities will be conducted in compliance with the Commission's regulations;
  - D. The issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and
  - E. The issuance of this amendment is in accordance with 10 CFR Part 51 of the Commission's regulations and all applicable requirements have been satisfied.

UNITED STATES NUCLEAR REGULATORY COMMISSIONDOCKET NO. 50-244ROCHESTER GAS AND ELECTRIC CORPORATIONNOTICE OF ISSUANCE OF AMENDMENT TO PROVISIONAL OPERATING LICENSE

The U. S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 46 to Provisional Operating License No. DPR-18 for the R. E. Ginna Nuclear Power Plant to Rochester Gas and Electric Corporation (the licensee). The Ginna Plant is located in Wayne County, New York. The amendment is effective as of the date of issuance and is to be implemented within 60 days of Commission approval in accordance with provisions of 10 CFR 73.55(b)(4).

The amendment adds a license condition to include the Commission-approved Guard Training and Qualification Plan as part of the license.

The licensee's filing, as revised, which has been handled by the Commission as an application, complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR §51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.
