Dear Mr. Kober:

By letter dated June 30, 1981 we issued Amendment No. 44 to Provisional Operating License No. DPR-18 for the R. E. Ginna Nuclear Power Plant. That amendment responded to your application notarized May 26, 1981 and submitted by letter dated May 29, 1981.

The amendment authorized changes to the technical specifications regarding safety-related shock suppressors (snubbers). Our action of June 30, 1981 completed our review conducted under NRC TAC Nos. 08414 and 08416, opened August 30, 1978. Effective the date of this letter, we are closing out these two TACS. This is purely an administrative action being taken to update our Regulatory Information Tracking System - Licensing Actions Report, to properly reflect the state of review for the Ginna plant.
