

July 2, 1991

Docket No. 50-244

Dr. Robert C. Mecredy
Vice President, Nuclear Production
Rochester Gas & Electric Corporation
89 East Avenue
Rochester, New York 14649

Dear Dr. Mecredy:

SUBJECT: CORRECTION TO AMENDMENT NO. ⁴² TO FACILITY OPERATING LICENSE NO.
DPR-18 - R. E. GINNA NUCLEAR POWER PLANT (TAC NO. 79829)

Amendment No. 42 to Facility Operating License No. DPR-18 for the R. E. Ginna Nuclear Power Plant was issued on June 3, 1991, as "effective immediately." Also a correction to this amendment was issued on June 10, 1991, which read "effective immediately, and shall be implemented within 30 days."

On June 20, 1991, Rochester Gas & Electric Corporation determined a non-conformance existed with the new key-lock switch installation and requested an effective date of "upon completion of the modification."

This letter corrects Amendment No. 42 to read "effective immediately, and shall be implemented within 30 days or upon completion of the new key-lock switch modification, whichever occurs later."

Please notify the NRC in writing when Amendment No. 42 has been implemented.

Sincerely,

Original signed by

Allen R. Johnson, Project Manager
Project Directorate I-3
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
