**Instructions to the Addressee: Please verify the document(s) received agrees with the above information. Notify Document Control if changes are required to addressee information, or mark the transmittal and return as indicated below.**

Engineering managers are required by NEP-121 to determine if new, revised, or temporary changes to procedures affect job functions of their personnel. Managers will communicate change information appropriately and provide documentation of any training conducted to the Engineering Training Coordinator.

The signature indicates acknowledgment of receipt of the above document(s) and that documents have been updated. Return signed and dated transmittal to Document Control within 10 working days of transmittal date to mail code:

# RADIOLOGICAL EMERGENCY PLANNING DEPARTMENT PROCEDURE

REP-02 Rev. 74

Date 02/26/01

Page 2 of 31

**TITLE:** ACTIVATION AND NOTIFICATION OF THE  
EMERGENCY OPERATIONS FACILITY ORGANIZATION

## 1.0 PURPOSE

This procedure provides instructions for the activation of the EOF Organization in response to an emergency at CR-3.

## 2.0 SCOPE

- 2.1 This procedure describes the activation of the EOF Organization and provides initial directions for assembly of emergency response personnel. It contains telephone directories for the emergency response personnel and facilities necessary for effective implementation of the RERP, and provides instructions for notifying response personnel of changes in emergency classification or of the need for a shift change.
- 2.2 A Safety Assessment was performed for this procedure. A determination was made that this procedure is outside the scope of 10 CFR 50.59.

## 3.0 APPLICABLE REFERENCE DOCUMENTS

FPC CR-3 "Radiological Emergency Response Plan"

## 4.0 DEFINITIONS AND ABBREVIATIONS

Terms used in this procedure are consistent with the definitions and abbreviations provided in the RERP.

### 4.1 DEFINITIONS

#### **4.1.1 Activation:**

To provide notification to emergency response personnel of the need to respond to the EOF for staffing and operation.

#### **4.1.2 Operational:**

The minimum functions and communication links are established and required equipment is in proper working order per the EOF checklist in REP-03.

# RADIOLOGICAL EMERGENCY PLANNING DEPARTMENT PROCEDURE

REP-02 Rev. 74

Date 02/26/01

Page 3 of 31

**TITLE:** ACTIVATION AND NOTIFICATION OF THE  
EMERGENCY OPERATIONS FACILITY ORGANIZATION

## 4.2 ABBREVIATIONS

CR-3 - Crystal River Unit 3  
ENC - Emergency News Center  
EOF - Emergency Operations Facility  
EOC - Emergency Operations Center  
EPC - Emergency Planning Coordinator  
FPC - Florida Power Corporation  
OSC - Operational Support Center  
REP - Radiological Emergency Planning  
RERP - Radiological Emergency Response Plan  
TSC - Technical Support Center

## 5.0 RESPONSIBILITIES AND ACTIONS

### 5.1 INITIAL ACTIVATION

The EOF Director is notified of any emergency that results in implementation of the RERP. In the event that the emergency is classified as a SITE AREA EMERGENCY or GENERAL EMERGENCY, the EOF Director will activate the EOF Organization. Based on assessments between the EOF Director and the Emergency Coordinator, the initial level of support required will be determined. The EOF Director will then notify those EOF members necessary for further assessment and response.

### 5.2 LEVEL OF ACTIVATION

The level of involvement of the various members of the EOF Organization will depend strongly on the nature of the emergency and the actions required to respond and recover. Assessment by the EOF Director, therefore, is appropriate before notifying and assembling the complete EOF Organization. The following describes the levels of involvement associated with each of the emergency classes:

#### a. Unusual Event

The EOF Director is notified and will notify EOF Staff as the event warrants.

#### b. Alert

The Emergency Coordinator will notify the EOF Director, who will notify the EOF Facility Manager; the Assistant EOF Director; the EOF Technical Support Director; the Communications Director; the

# RADIOLOGICAL EMERGENCY PLANNING DEPARTMENT PROCEDURE

REP-02 Rev. 74

Date 02/26/01

Page 4 of 31

TITLE:

ACTIVATION AND NOTIFICATION OF THE  
EMERGENCY OPERATIONS FACILITY ORGANIZATION

Director, Site Operations; and the Vice President, Crystal River Nuclear Plant. This notification will alert these individuals to stand by for further information, or may include a request for specific support.

The EOF Technical Support Director will notify the Corporate Health Physicist. The Corporate Health Physicist will call the EOF Dose Assessment Team members and activate at an ALERT.

The Vice President, Crystal River Nuclear Plant will notify the Senior Vice President and Chief Nuclear Officer.

The EOF Director may also activate, at his discretion, other portions of the EOF Organization deemed necessary. Nuclear Security should be called to activate the EOF group pagers.

An REP Staff member will request that an FPC representative respond to the Citrus EOC and Levy EOC, when applicable.

c. Site Area Emergency

EOF members will be notified by telephone and/or pager of the emergency, and are required to report to their functional locations as specified in this procedure.

d. General Emergency

EOF members will be notified by telephone and/or pager of the emergency, and are required to report to their functional locations as specified in this procedure.

5.3 EOF NOTIFICATIONS

5.3.1 Notification Network

In order to expedite notifications, the EOF Organization functions as a notification network. The notification network is designed to provide notification of RERP activation, instructions for staffing the emergency facilities, notification of changes in emergency classification, and relay of shift change instructions. Figure 1 illustrates this network. Attachment 1 provides a directory of emergency response personnel, including the emergency positions, primary and alternate designees, and their respective telephone numbers with information arranged for use as the notification network. Each emergency position/individual responsible for implementing the network is listed at the top of a page, followed by the emergency positions/individuals he/she is responsible for contacting. If neither the primary nor the alternate(s) can be reached, the EOF Director is to be notified to designate an individual to fill the position until the primary or alternate can be located.

# RADIOLOGICAL EMERGENCY PLANNING DEPARTMENT PROCEDURE

REP-02 Rev. 74

Date 02/26/01

Page 5 of 31

**TITLE:**

**ACTIVATION AND NOTIFICATION OF THE  
EMERGENCY OPERATIONS FACILITY ORGANIZATION**

During normal working hours, notification of EOF members located at CR-3 may be via pagers and/or the plant public address system. If a SITE AREA EMERGENCY is declared, EOF members should report to the EOF immediately, regardless of whether he/she is the primary or alternate for that position. Before departing for the EOF, an individual in the EOF member's department should be notified in the event he/she is called while enroute. The EOF Director will determine final staffing as needed.

### 5.3.2 Special Considerations

The Corporate Security Specialist is not required to report directly to the EOF since he/she must maintain the mobility necessary for fulfillment of responsibilities. However, the Corporate Security Specialist must notify the EOF Director upon assuming his/her emergency role.

### 5.4 NOTIFICATION OF CHANGE IN EMERGENCY CLASSIFICATION

After initially notifying EOF members that an emergency situation exists at CR-3, subsequent events may result in a reclassification of the emergency. Depending on the initial classification of the emergency and whether the change indicates a more or less serious emergency situation, varying changes in support may be appropriate. To assure EOF members are informed of changes in emergency classification in an expeditious manner, the network utilized for notification described above shall also provide the basis for notification of changes in emergency class.

Upon notification by the Emergency Coordinator that a change in emergency classification has occurred, the EOF Director shall initiate notification of the EOF Organization. This may be accomplished by announcement at the EOF, supplemented by telephone contacts; however, each individual position responsible for initial notifications per the network described in Section 5.3 above shall assure that each designated contact of the network is informed of the classification change. Each EOF member shall then respond as appropriate to the new classification or per directions provided through the EOF Director.

### 5.5 SHIFT CHANGE

Should the emergency situation appear to require long-term response and support, the EOF Director shall assess the need for providing personnel assignments for continuing support. If a shift change is required, the EOF Director should identify the emergency response positions necessary to maintain adequate response. Each individual filling those positions should contact their alternate to report to the emergency response facility. In the event a suitable alternate cannot be located in a timely manner, then that member should immediately inform his respective director to locate or identify a suitable replacement.

# RADIOLOGICAL EMERGENCY PLANNING DEPARTMENT PROCEDURE

REP-02 Rev. 74

Date 02/26/01

Page 6 of 31

TITLE:

ACTIVATION AND NOTIFICATION OF THE  
EMERGENCY OPERATIONS FACILITY ORGANIZATION

Once the relief alternate arrives at the designated location, there shall be a briefing by the individual that has filled the position prior to the transferring of responsibilities. The briefing is to be as complete as possible and should entail, as a minimum, the scenario of the emergency, the impact on the emergency position, the contacts made, the response anticipated from inquiries made, the actions exercised, the justification for these actions, and conveyance of all forms and logs generated.

## 5.6 NOTIFICATION DIRECTORIES

5.6.1 As an integral part of this procedure, directories are provided for EOF personnel, support facilities, support organizations, and off-site organizations:

- a. Attachment 1 provides a directory of EOF personnel and office and home telephone numbers for notification purposes.
- b. Attachment 2 provides a directory of emergency response facilities and telephone numbers.
- c. Attachment 3 provides a directory of off-site technical organizations. The designated FPC contact is also provided.

5.6.2 Each EOF member should inform the EPC within one week of known changes in personnel when such changes affect the EOF personnel and/or telephone numbers.

5.6.3 The EPC shall be informed of changes to the listings for off-site organizations or miscellaneous support contacts.

5.6.4 These changes will be made and distributed by the EPC to holders of this procedure.

5.6.5 There shall be a quarterly review and update of the telephone numbers listed in the attachments of this procedure.

## 6.0 INTERPRETATION CONTACT

The responsibility for the development and maintenance of this procedure rests with the EPC. The EPC shall be contacted regarding any clarification or interpretation of requirements of this procedure.

Collins, M. E.	FPC Levy Co. EOC Rep.							

\* An emergency responder is considered "fit-for-duty" if they have not consumed any alcohol during the pre-duty 5 hour abstinence period. If YES (fit-for-duty), access may be granted. If NO (not fit-for-duty), the EOF Accountability Representative should notify the EOF Director and instruct the individual to report to the area designated by the EOF Director and stand by for further instructions.

\*\* The EOF Director may approve an individual who has not met the 5 hour abstinence period requirement to staff an emergency position provided a determination of fitness-for-duty is made. This may be accomplished by breath analysis. In addition, a responsible supervisor shall interview the employee to further ascertain fitness-for-duty. If the individual is fit-for-duty, no further authorization is required.
