Dear Ms. Saul:

The purpose of this letter is to forward Emergency Response Data System (ERDS) implementation documents. Enclosed you will find Data Point Library (DPL) updates for Kewaunee (Numbers 310 and 315), Calvert Cliffs (Number 311), DC Cook (Number 312), and Browns Ferry (Number 314). These changes should be made to the ERDS database as soon as possible. Also enclosed is a Plant Attribute Library change for Millstone (Number 313). Please note that change number 315 also includes a PAL change for Kewaunee. These PAL changes should be coordinated with the licensee points of contact to ensure that our system is updated on the same date as the change in the licensee computer systems.

If you have any questions, please call me at (301) 415-6383 or e-mail me at [jrj1@nrc.gov](mailto:jrj1@nrc.gov).

Sincerely,
