

Mr. Peter S. Hastings
Licensing Manager
DCS
P.O. Box 31847
Charlotte, NC 28231-1847

SUBJECT: RESPONSE TO LETTER DATED JANUARY 29, 2001

Dear Mr. Hastings:

We have reviewed your letter dated January 29, 2001, and would like to call two matters to your attention. First, my Branch has the lead for preparing the Environmental Impact Statement for the proposed Mixed Oxide Fuel Fabrication Facility (MOX FFF) at the Department of Energy Savannah River site in South Carolina. As such, Ms. Charlotte Abrams, Chief, Environmental and Low-Level Waste Section, Division of Waste Management (Mail Stop T7J8) should be on distribution for correspondence related to the environmental report or our environmental review.

Second, it is our responsibility to prepare the Notice of Intent and other Federal Register notices associated with the project. We understand your concern for the project schedule. We intend to publish the Notice of Intent shortly after receiving the Construction Authorization request. We understand you plan to submit this by the end of February.

If you have any questions regarding the above, please contact Tim Harris of my staff at (301) 415-6613. Mr. Harris is the interim Environmental Review Project Manager while Jennifer Davis is on a short-term rotational assignment.

Sincerely,

Thomas H. Essig, Chief
Environmental and Performance
Assessment Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards
