Offsite Dose Calculation Manual (ODCM)

Pursuant to Technical Specifications (TS) Section 5.5.1.c for Oconee, McGuire, and Catawba Nuclear Stations, enclosed are the Duke Power Company ODCMs effective January, 2001. Duke is issuing the ODCM in a new format as a complete reissue for each nuclear station. The revision number for each manual is found on the front inside page as follows:

Oconee	Revision 41
McGuire	Revision 42
Catawba	Revision 43

The new format issues a separate manual for each nuclear site. Information found in the generic section of the previous manual is now contained in each site manual.

Please destroy present manual and replace with the enclosed manuals. In the future, a complete manual will be issued for each station with changes shown by revision bars in the margins.

If you have any questions, please contact L. B. Jones at (704) 382-4753.

Very truly yours,

M. S. Tuckman
