Baton Rouge, LA 70809

SUBJECT: REQUEST TO DEFER REMEDIATION OF NORTHERN PORTION OF GRIDS
1, 2, 3 AND 4 TO PHASE 2

Dear Mr. Vinzant:

On February 23, 2001, Kaiser Aluminum (Kaiser) requested U.S. Nuclear Regulatory Commission (NRC) approval to defer remediation of the northern portion of grids 1, 2, 3 and 4 to Phase 2. As indicated by Earth Sciences Consultants, Inc. (ESC) a concrete spillway was encountered during remediation of these areas. Further, ESC states that the spillway is hydraulically connected to the fresh water and retention ponds. ESC states that further remediation efforts in these areas will be hampered by large amounts of water entering the excavation.

NRC approves Kaiser's request to defer remediation of the northern portions of grids 1, 2, 3 and 4 to Phase 2. The Phase 1 Final Status Survey Report should clearly identify what portions of the grids were remediated during Phase 1, and which areas will be deferred to Phase 2.

If you have any comments or questions concerning this letter, please contact John Buckley at (301) 415-6607.

Sincerely,

/RA/ R Nelson for
Larry W. Camper, Chief
Decommissioning Branch
Division of Waste Management
Office of Nuclear Material Safety
and Safeguards

Docket No. 040-2377
License No. STB-472 (Terminated)
