

Map of the Ten-Mile Area Around the Brunswick Plant

The map is divided into zones. Each zone is marked with a different letter. If the radio or television station tells you to evacuate, the information on the following pages tells you where to go to be safe. Look at the evacuation route for your zone. Mark the route on the map now so you will have it if you need it.

Relocation Schools for Licensed Day Care Centers and Schools*

If there is an evacuation while children are in school, **DO NOT GO TO THEIR SCHOOL.** School children within the 10-mile emergency planning zone (EPZ) will be taken by school officials to one of the relocation schools listed in this chart. School children who live in the 10-mile EPZ and attend a school outside the EPZ will be kept at their schools by school officials until they are picked up by their parents.

Look at the chart in the column under "School & Location" and find your child's school. The next column over shows the zone on the map in which the school is located. The last column lists the relocation school for each school in the 10-mile area around the plant. When you have determined the designated relocation school for your child's school, you may do one of the following:

- You may pick up your child at the relocation school and go and stay at the evacuation shelter for your zone.
- You may pick up your child at the relocation school and go and stay somewhere other than the evacuation shelter, as long as you are 10 miles from the plant.

Your child will be cared for at the relocation school by school and county officials until you arrive.
