About 5 years

F/S

Put together packing of papers

Ru comes out in air

Stem

FP release experiments

- oxidize clad

- ^{then} work a fuel

-

About 75 and 100% oxidized, ^{clad} before start
to release Re Ruthenium

Ru

Segment of fuel rod

press caps on
end

let boil away

oxidizes, cracks, ^{releases} FP / no pre-drilled hole

Ru longer experiments than H₂/VI
