MATERIALS

Dear Mr. Eisenbud:

We are being authorized by the New York Air Procurement District to dispose of a fused salt containing approximately 6% by weight of uranium, total weight 4 pounds of uranium in 60 pounds of salt. This material was supplied to us by the Air Force in connection with its contract AF(616)-3732, and the work was performed under our AEC license #3503. The Air Force reminds us that in addition to their approval we must secure directly from you permission to dispose of it as AEC accountable material.

Therefore, this is to request AEC approval to dispose of the material, plus your comments as to approved methods for such disposal.

Very truly yours,

NUCLEAR DEVELOPMENT CORPORATION OF AMERICA
