Sacramento, CA 94234-7320

Dear Mr. Yin:

We have been informed that you will be attending the 2001 Sealed Source and Device Workshop conducted by the U.S. Nuclear Regulatory Commission during the week of April 2-6, 2001. In an effort to better understand student needs, and to provide students with a means to gauge their understanding of the material, we request that you complete the enclosed pretest before arriving at class on Monday morning. Please fill out your answer clearly on BOTH the answer sheet and the pretest question sheet. We will collect the answer sheets at the beginning of class, and distribute an answer key. Following the technical lectures, we will review the pretest in detail.

If you have any additional question, please contact me at (301) 415-7273 or William Ward at (301) 415-7038.

Sincerely,

*/RA/*
