August 20, 1955

Mr. Lyall Johnson
Chief, Licensing Controls Branch
U. S. Atomic Energy Commission
Washington 25, D. C.

Dear Mr. Johnson:

In accordance with our telephone conversation of the 19th of August, 1955, we are enclosing herewith two copies of Form AEC-2 which we believe has been executed properly.

We will await the receipt of regulations pertaining to special fissionable material before we file our application to receive enriched uranium (30% enrichment.)

We intend to insert small samples in radiation capsules. It is our desire to maintain a very minute inventory of this material. We anticipate the need of this license within two months.

Once again we wish to thank you for your cooperation.

Very truly yours,

NUCLEAR DEVELOPMENT CORPORATION OF AMERICA
