President and Chief Executive Officer  
STP Nuclear Operating Company  
South Texas Project Electric  
Generating Station  
P. O. Box 289  
Wadsworth, TX 77483

SUBJECT: SOUTH TEXAS PROJECT(STP), UNIT 2 - CORRECTION OF AN  
ADMINISTRATIVE ERROR REGARDING AMENDMENT FOR REVISION TO  
THE TECHNICAL SPECIFICATIONS IMPLEMENTING 3-VOLT ALTERNATE  
REPAIR CRITERIA FOR STEAM GENERATOR TUBE REPAIR  
(TAC NO. MA8271)

Dear Mr. Cottle:

On March 8, 2001, the Nuclear Regulatory Commission issued Amendment No. 114 to Facility Operating License No. NPF-80 for the STP Unit 2. The amendment related to approval of the licensee request for application of 3-volt alternate repair criteria to the methodology for repair of steam generator tubes.

Through an administrative error, the "Attachment to license Amendment 114" listing the Technical Specification page replacements inadvertently included removal and insertion of pages 3/4-12, 3/4-14, and 3/4-15. Those pages are not to be removed or inserted. The page, showing the corrected list, is included for your use.

Sincerely,
