

March 21, 2001

Iti Qualitek, Inc.  
Attn: David Morris,  
President  
267 Boston Road  
N. Billerica, MA 01862-2310

Dear Mr. Morris:

This letter is in response to your letter dated December 18, 2000, in response to our facsimile dated December 14, 2000, asking for the complete documentation referenced on Registration Certificate No. NR-399-D-103-E in order to change the registration for the Model 200 Leakmeter (now called Model Q200) from Ion Track Instruments, Inc. to iTi Qualitek, Inc. This change in registration of the listed distributor requires the issuance of a new certificate and must have complete information. The current certificate lists the Models Leakmeter 120 and Leakmeter 200, both of which have a radioactive source of Ni-63. We understand you will only be distributing the Model 200 (Q200).

In addition, we would like the following information:

1. Change of ownership information discussing transfer of assets, products, records custody, contractual arrangements, and servicing arrangements for products previously distributed (as in your letter dated June 21, 1995) by Ion Track Instruments.
2. Please provide distribution reports for all products previously distributed along with the last serial numbers produced.
3. The Ion Track file documented a letter dated July 6, 1995, that said to ignore documents proprietary or words to that effect. Since your drawings are marked that they must not be loaned or copied without written permission we are asking that you restate the permission granted previously or resubmit the original letter with your request.

D. Morris
