MEMORANDUM TO: Paul Lohaus, Director
State and Tribal Programs

FROM: Donald A. Cool, Director
Division of Industrial and
Medical Nuclear Safety

SUBJECT: REVIEW OF SUGGESTED STATE REGULATIONS: PART A -
GENERAL PROVISIONS; PART D - STANDARDS FOR RADIATION
PROTECTION; AND PART J - NOTICES, INSTRUCTIONS AND
REPORTS TO WORKERS; INSPECTION

We have completed our review of the Suggested State Regulations (SSR), Part A - General Provisions; Part D - Standards for Radiation Protection; and Part J - Notices, Instructions and Reports to Workers; Inspection. We have one comment related to the proposed revisions to Part D. Appendix G to Part 20 -- Requirements for Transfers of Low-Level Radioactive Waste Intended for Disposal at Licensed Land Disposal Facilities and Manifests, in 10 CFR Part 20, is a compatibility level B, with the exception of definitions of certain forms. This requirement was added in a revision to 10 CFR Part 20, noticed in the Federal Register on September 21, 1998 (63 FR 50127), effective November 20, 1998. Equivalent requirements were not found in the revisions to Part D. We do have editorial comments on Part A and Part D for consideration, which are attached to this memorandum as a markup of the affected pages.

Attachment: Editorial mark-up
