

U. S. NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: U. S. Nuclear Regulatory Commission (NRC)

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

1. Type of submission, new, revision, or extension: New.
2. The title of the information collection: General Licensee Registration.
3. The form number, if applicable: NRC Form 664.
4. How often the collection is required: Annually.

5. Who will be required or asked to report: General Licensees of the NRC who possess devices subject to registration under 10 CFR 31.5.
6. An estimate of the number of annual respondents: 4,300.
7. An estimate of the total number of hours needed annually to complete the requirement or request: 1,433 hours annually (4,300 respondents x 20 minutes per form).
8. An indication of whether Section 3504(h), Pub. L. 96-511 applies: Applicable.
9. Abstract: NRC Form 664 would be used by NRC general licensees to make reports regarding certain generally licensed devices subject to registration. The registration program is intended to allow NRC to better track general licensees, so that they can be contacted or inspected as necessary, and to make sure that generally licensed devices can be identified even if lost or damaged, and to further ensure that general licensees are aware of and understand the requirements for the possession of devices containing byproduct material. Greater awareness helps to ensure that general licensees will comply with the requirements for proper handling and disposal of generally licensed devices and would reduce the potential for incidents that could result in unnecessary radiation exposure to the public and contamination of property.

A copy of NRC Form 664 and the final OMB supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room 1F23, Rockville, MD 20852. OMB clearance requests are also available at the NRC Worldwide web site: <http://www.nrc.gov/NRC/PUBLIC/OMB/index.html>. The OMB supporting statement, and NRC Form 664 will be available on the NRC home page for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer by (insert date 30 days after publication in the Federal Register). Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.
