Subject: Shipment of Irradiated Reactor Fuel
Revisions to Advance Notifications

References: 10 CFR 73.37, *Requirements for physical protection of irradiated reactor fuel in transit.*
10 CFR 73.72, *Requirements for advance notification of shipment of formula quantities of strategic special nuclear material, special nuclear material of moderate strategic significance, of irradiated reactor fuel.*
10 CFR 73.21, *Requirements for the protection of safeguards information.*

We recently sent you two sets of advance notification packages for 4 shipments of irradiated reactor fuel assemblies.

Due to delays in obtaining state support for an approved route, shipments R28-2000-1 and R28-2000-2 are being rescheduled. Please revise the schedules for these two shipments (in both sets) by adding 56 calendar days to the dates for both R28-2000-1 and R28-2000-2.

Please contact me if you have any questions.

Sincerely,

Christopher W. Becker
Reactor Laboratory Manager
