Mr. Donald P. Dise  
 Vice President - Engineering  
 Niagara Mohawk Power Corporation  
 300 Erie Boulevard West  
 Syracuse, New York 13202

Dear Mr. Dise:

In response to the Commission's Show Cause Order issued on January 2, 1980, your submittal dated January 22, 1980 provided documentation indicating that completion of some of the Category A requirements for the Nine Mile Point Nuclear Station necessitates equipment which is expected to become available on the following schedule:

<u>Item</u>	<u>Delivery Date</u>
2.1.3a	February 29, 1980

After reviewing this matter, we conclude that you have shown that necessary equipment will not be available for implementation by January 31, 1980. For this item the implementation schedule of within 30 days of receipt of the equipment but no later than June 1, 1980, as specified in the Order, is appropriate.

As indicated in our letter dated October 30, 1979, the acceptability of your implementation of each Category A item (excluding 2.1.7a) will be the subject of post implementation review. Should your information concerning the availability of the equipment change, notify this office within five days of receipt of the new information.

Sincerely,

Original signed by

Harold R. Denton, Director  
 Office of Nuclear Reactor Regulation
