Dear Mr. Mangan:

SUBJECT: FIRE PROTECTION TECHNICAL SPECIFICATION CHANGES (TAC 60881)

RE: Nine Mile Point Nuclear Station, Unit No. 1

By letter dated January 29, 1986, you proposed changes to Section 3.6, General Reactor Plant, of the Appendix A Technical Specifications (TS). The proposed amendment would modify the TS regarding the Fire Protection Program to reflect: (1) changes consistent with the Standard Technical Specifications; (2) editorial changes; and (3) changes reflecting plant modifications.

As a result of discussions with the staff regarding Generic Letter 86-10, Implementation of Fire Protection Requirements, the request for amendment is no longer required since the current fire protection program will be incorporated into the Final Safety Analysis Report. By letter dated May 15, 1986, you requested withdrawal of the request for amendment dated January 29, 1986. Pursuant to 10 CFR 2.107 the staff has granted this withdrawal. This closes out the staff's action regarding this submittal.

A copy of the enclosed Notice of Withdrawal of Application for Amendment is being forwarded to the Federal Register for publication.

Sincerely,

John A. Zwolinski for
