Dear Mr. Mangan:

SUBJECT: RETYPED APPENDIX A TECHNICAL SPECIFICATIONS (TAC 61450)

Re: Nine Mile Point Nuclear Station, Unit No. 1

Enclosed is the draft final retyped Appendix A Technical Specifications (TS) for Nine Mile Point, Unit 1. The TS include the acceptable corrections submitted in your letter of December 30, 1986. Your letter was in response to the staff's November 4, 1986 request for a review of the draft retyped TS.

The enclosed draft final retyped TS are complete up to and including Amendment 91. I request that you provide us with your certification that this document is the Appendix A Technical Specifications for Nine Mile Point, Unit 1 by April 15, 1987. This will allow the staff to issue the retyped TS as soon as reasonably possible to reduce the time that the staff is keeping two TS up-to-date. The retyped TS will be issued incorporating the latest amendments, including those issued after Amendment 91.

Until the retyped TS are issued by the staff as the official TS for Nine Mile Point, Unit 1, the official TS for Nine Mile Point, Unit 1 are the existing TS.

Sincerely,

Jack N. Donohew, Jr., Acting Director
BWR Project Directorate #1
Division of BWR Licensing
