Subject: 4/28 Conf. Call

Dick,

The PRA Branch can support a conference call with NEI on Wednesday 4/28 to discuss what we are looking at from a risk perspective, and what information (if any) that we would like to obtain from them.

Also, Mike Cheok received a voice mail message at lunch today from Biff Bradley, an NEI PRA person. Biff wanted to get Mike's perspectives on the PRA information that was mentioned at the 4/13/99 public meeting. I told Mike that he may want to inform Biff about the conference call next week, and defer his discussion with him until then. I would rather not have the Technical Working Group getting involved in individual calls from NEI since they are on such a short time crunch to finish their reviews.

Thanks,
Vonna
