Subject: RES Input on ACRS Comments

Joe and Frank

Last week RES provided us with a document relative to ACRS comments on our decommissioning report. They asked for our comments before Farouk signed the document. Where do we stand on providing comments?

Glenn and Frank

Also, I had Diane send Frank, Glenn and me a table to use to fill in the boxes relative to where we are on risk, consequences, and T/H information. Glenn or Frank have you looked at it and if so will it do what we want?
