Attention of Isotopes Division

Gentlemen:

With our letter of May 24, 1957, we forwarded two signed copies of Form AEC-313 (Application for Byproduct Material License) and Form AEC-313b (Supplement B - Sealed Sources).

Since we are very anxious to procure tritium excited buttons for safety reasons, we would appreciate your co-operation in expediting approval of our license.

Yours very truly,

*E. W. Guggenheim*
