**Subject: Beaver Valley Power Station, Unit No. 1 and No. 2  
BV-1 Docket No. 50-334, License No. DPR-66  
BV-2 Docket No. 50-412, License No. NPF-73  
Request for Initial Operator License Examination Schedule Change**

Currently, Initial Operator License Examinations were scheduled to occur during the period of April 2 through April 6, 2001, for Beaver Valley Unit 2 (BV-2) and the period of April 16 through April 20, 2001, for Beaver Valley Unit 1 (BV-1). Per the discussions held between Mr. R. J. Conte, Chief Operator Licensing and Human Performance Branch, Region I and Mr. P. J. Schwartz, Superintendent, Operations Training; FirstEnergy Nuclear Operating Company (FENOC) requests a postponement of the scheduled examinations for both units (BV-1 and BV-2) until the June/July 2001 time frame. Based on the above discussions, FENOC understands that the NRC examination validation for both units (BV-1 and BV-2) will be conducted during the week of April 16, 2001.

FENOC appreciates the NRC's efforts to reschedule the resources needed to accommodate this request and will support the revised examination schedule.

Please contact Mr. Patrick J. Schwartz, Superintendent, Operations Training at 724-682-5751 to develop the revised examination schedule.

Sincerely,

Lew W. Myers
